Circular No:1

Date:31/5/2020

Warm Greetings from Elizabethian Family

Due to the ongoing COVID Pandemic situation our school has been offering online education through video classroom since June 1. I hope all my students are getting proper knowledge through this initiative. Students have to watch all videos and complete the notes in notebook.

Class test will be arranged through Assignment section in video classroom. Students have to write answers in answer sheets and forward your answers to concern teachers. Teachers will check and provide the grades to the students. Besides, parents have to check the home works which we send through what's app group. It's the time to stay at home for our safety.

I always pray for your good health and well being. If anybody has the due fee of last year please pay as soon as possible. You can pay the fee through the bank. I am very happy for your warm co-operation and expect your continuous support throughout this academic year.

Thanking you
